

Value Added Reseller Program

Sitrof OnSite Hosted Document Management

The Sitrof OnSite Hosting solution is an easy-to-use world class turnkey document management solution offered by Sitrof. The all-in-one solution takes the best of breed technologies from Xerox DocuShare, Seagate (EVault) and Dell and bundles them with second to none 24/7 worldwide support. However, unlike your typical hosted solutions where the documents reside outside of the company, the Sitrof OnSite Hosted Solution keeps the documents at the client's location and secure. Sitrof completely monitors and manages the system 24/7 remotely and makes sure that everything operates at peak levels. Beyond this incredible service it even gets better because the solution also comes with a Xerox Multifunction Device that allows the client to easily scan documents into the system. Furthermore, to make things even better, Sitrof has also incorporated Seagate's EVault tool to make sure that the client's data is protected in the case of a disaster. When delivered it is ready to go right out of the box. So all you have to do is plug it in and follow the EZ 4 step install process. The services you can wrap around this solution are endless, and if you don't have the engineering resources in place to do the work, you can sell the services and outsource us to do it for you. But the best part of this document management solution is the affordable price! Even the smallest of companies can afford this!

All this for as low as \$37 per user/month (30 Day Money Back Guarantee)

Sitrof has built its model so that companies like yours can profit from the solution. Our VAR's receive the training and tools they need to successfully sell and help deploy the system.

Some of the program benefits include:

- Up to 30% off the list price
- Complete sales and technical training
- Technical support via phone, email and the web
- Ongoing sales support by a dedicated VAR manager
- Strong pre-sales technical/engineering support
- Ability to outsource our resources as part of your team for additional services
- Lead Generation

If you are looking to expand into the lucrative Document Management market this is your chance. But you better act fast as the enrollment is limited. So the decision is yours... your level of involvement is completely scalable and Sitrof has made sure that it is easy for you to build your services into the solution. Maximize your revenues by offering your own professional services or benefit from a thirty percent discount on Sitrof professional services.

We have three distinct VAR programs geared to meet your specific needs. Feel free to start off on a lower level and when you are ready, upgrade to the next level and only pay the difference between the two programs.

Silver Level

- Sell the solution and receive a up to 30% discount.
- Sell Additional Sitrof Solution built on the solution and receive a up to 30% discount.

Cost: Free

Gold Level

Includes everything in the Silver level plus:

- Sell Sitrof Services and make 20% margin of the hours billed.
- The ability to resell your own services and bundle it into the lease price.

Cost: \$500

Platinum Level

Includes everything in the Silver and Gold level plus:

- The ability to resell Sitrof Services and make up to 30% margin of the hours billed.

Cost: \$1,500
